

ALEX CHEN

San Francisco, CA | alex.chen@email.com | (555) 019-2834 | linkedin.com/in/alexchen-demo

SUMMARY

Versatile Software Engineer with 2+ years of hands-on experience building scalable web applications and microservices. Skilled in full-stack JavaScript development (Node.js, Express, React), database architecture (MongoDB, PostgreSQL), and RESTful API integration. Passionate about writing clean, maintainable code and optimizing application performance.

SKILLS

- **Languages & Frameworks:** JavaScript (ES6+), TypeScript, Node.js, Express.js, React, HTML5, CSS3/SASS
- **Databases & Tools:** MongoDB, PostgreSQL, Redis, REST APIs, Git, Docker, Jest, Postman
- **Cloud & DevOps:** AWS (S3, EC2), Vercel, CI/CD Pipelines (GitHub Actions)

WORK EXPERIENCE

Junior Software Developer

Apex Tech Solutions | San Francisco, CA

June 2024 – Present

- Designed and maintained 15+ RESTful API endpoints using Node.js and Express, serving over 50,000 active monthly users.
- Architected MongoDB schemas and integrated Redis caching, reducing average API response latency by 35%.
- Developed responsive dynamic UI components in React, improving user engagement metrics by 20%.
- Participated in daily Agile stand-ups, code reviews, and automated unit testing using Jest (achieving 85% test coverage).

Software Engineering Intern

DevPulse Labs | Remote

January 2024 – May 2024

- Assisted in migrating a legacy monolithic application to a microservices architecture using Node.js and PostgreSQL.
- Implemented JWT-based authentication and role-based access control (RBAC) across backend services.
- Resolved 40+ bug tickets spanning both frontend React interfaces and backend data processing pipelines.

PROJECTS

TaskTrack - Full Stack Project Management Tool

- **Tech Stack:** React, Node.js, Express, MongoDB, Tailwind CSS
- Built a real-time Kanban task-tracking application featuring user authentication, webhooks, and persistent storage.
- Streamlined state management using React Context API and integrated Socket.io for live multi-user updates.

E-Commerce API Service

- **Tech Stack:** Node.js, Express, PostgreSQL, Docker, Swagger
 - Developed a complete backend e-commerce payment and inventory tracking API with automated API documentation using Swagger.
-

EDUCATION

Bachelor of Science in Computer Science

University of California, Davis

Graduated December 2023

- **Relevant Coursework:** Data Structures & Algorithms, Database Systems, Web Development, Operating Systems.
